

Would you also recommend to change the R-Core transformers?

KANI transformer I think that it is the highest peak among the R-Core transformer

I have been using, such as the amplifier ,CDP, Equalizer,AMP,Excitation power supply

音楽の本場、ヨーロッパにはじめて、出川式定電流励磁電源K I Tが渡りました、
着いた週にすぐに試聴、結果がでたようです。
うれしい知らせが届きました。

Dear Sir

The two powers supplies works very well : the amelioration sound is stupefying even with respect to a tungar supplie!!! nice work and nice packaging !

I'm thinking about ordering a variable 12V / 3A power supply for my HP FERTIN 18" FIELD COIL

フィンランドに送った真空管アンプ

以前お知らせした、フィンランドのユーザー様からのご依頼で製作した、EL38・PP真空管アンプです。フィンランドから、お礼のメールが届きましたのでご紹介いたします。

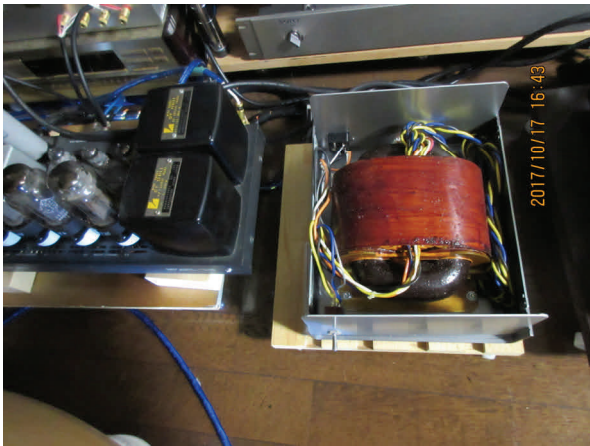

Dear

After hearing these amps, all other amps sound broken. The amps are so good that I am considering buying another pair of Mr. Maekawa's amps from you. I have listened to tens of different tube amps and I must say that Mr. Maekawa's amps are very different sounding amps than those. His amps are not hi-end or hi-fi -- they are the **FIRST AMPS** that are capable of recreating **MUSIC** in my audio system! Not separate sounds that sound brighter, harder, darker, softer; not mixed too wet or too dry; not playing only 'frames' of tones in notes, but rather making music in a coherent and very lifelike way. Dynamics are effortless. **PRAT** is perfect. The sound is complete, almost perfect with harmonic overtones, very beautiful without sounding rosy, 3-D images are exceptional and the sizes of instruments and their proportions are just right. There is no electrical haze across the entire audio frequency range (not a single, artificial hard sound from these amps), no sound of 'machine'! The result is effortless, very natural and pure sound, these amps have soul and heart, and they are very organic sounding. These amps are '**WIDEBANDER**' amps. I suspect that the Degawa rectification bridge is the main reason that these amps are so different sounding. I think Mr. Maekawa is a **MASTER BUILDER** and this amp is absolutely world class! I could not be happier with the result!
THANK YOU!

Best Regards,

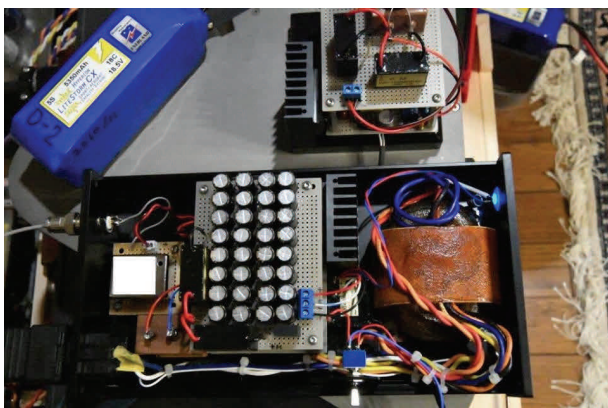

etc
